About
Pure Water Technology

At Pure Water Technology®, water is core to everything we do. We manufacture industry-leading water systems to bring **FRESH**, **HEALTHY** and **PURE** water to the workplace.

Pure Health Solutions, Inc. (PHSI®), the corporate company of Pure Water Technology®, is an industry-leading national manufacturer of state-of-the-art point-of-use water purification systems.

Recognizing the inefficiencies, excess costs and safety issues related to bottled water in the commercial marketplace, PHSI® has engineered patented point-of-use systems to deliver pure and fresh water to our customers. Pure Water Technology® presents comprehensive, on-demand beverage solution to the commercial marketplace including:

- Top-of-the-line water coolers
- Premier coffee brewers
- E-commerce replenishment
- Unparalleled customer service

CleanContact™
Anti-microbial touchpad and surrounding surfaces manufactured and tested to protect against cross-contamination of germs.

24/7-System Monitoring
At the core of PHSI's patented technology is a microprocessor that controls and monitors activated oxygen injection, filter life, water quality, and all other system functions 24 hours a day.

Activated Oxygen Injection
Oxygenates the water during the ATS process, delivering FRESHNESS YOU CAN TASTE™.

ATS-Auto Tank Sanitization
Eliminates microbiological contamination and does away with the tedious and often overlooked task of sanitizing the holding tank.

Pure Touch Dispense
The ergonomic design delivers an optimum dispense height and spacious dispense area for large containers which prevents germ contamination of the dispense nozzle.
